

Jake Holshuh lives in Long Beach and started building models about 10 years ago. His favorite modeling subjects are aircraft and automobiles. His 1/32 scale F4B won first place in the Advanced Division and the June *Aircraft of the Vietnam War* Theme Award. It is a modified Tamiya F4J with aftermarket parts; The project took months to complete and Jake says "I will never again try to blend plastic and resin parts!" Jake builds about 6-10 models per year and is also an HO gauge (1/87 scale) model railroader.
