

Julian English

Julian is from Long Beach and is the IPMS OC Webmaster. He's been building models for about 15 years and is well known for award-winning aircraft. Julian is a prolific builder, up to 20 kits per year, which also includes a few armor subjects. He's holding his 1/72 scale P-47N assembled from an Italeri kit; It was a 20 hour build of a new kit that "had some issues." Nevertheless, it took top honors in our "Thunderbolts and Lightnings" theme March contest
