

Joe LoMusio shows off his WWI Mk A Whippet tank (in German captured markings) which won 2nd place in the August 2022 meeting. It took about 20 hours to build the model from a Takom kit. Joe says the "well made tracks were a delight!" He's been building competition quality models, mostly WWI aircraft and armor, since 2007. Joe lives in Murrieta and builds 8-10 models a year.
